## || Icylawnmowers Vs The Myth Community ||

### Opening Statements –

In recent years there have been several allegations tossed left and right regarding the state of Icylawnmowers and his affairs. Many of which are incredibly sour depictions showcasing him as a; Pedophile, Groomer, CP Artist, Child Murderer. These allegations have not been thrown lightly, and can fall into the category of being a Felony in the United States of America.

I, Icylawnmowers/VentaHybrid/Roland will be reviewing where these allegations came from, why they exist. I will also link a video to the very Direct Messages in which this drama sprang from.

You can watch it → here ←

Now you may be wondering why information on an incident that happened ***November, 2021*** is just now being debunked. Well, to cut the story short, I actually gaslit *myself* into believing an entirely false story.

During the beginning of the Decem Reges as a myth, we had several developers and other myths hired in, they were known as the Kings. One of these Kings named PlushyMaster had a girlfriend named Puffy. Puffy was the daughter of SinsOfOurFathers (he was also a King in the group).

Me at the time, was absolutely pimping the fuck out of people in my own community and out of the community, there was a strict policy I had in place that prevented people younger than me from getting into the group (some did anyways) so the story wouldn't need to be PG-13 or censored. One of these people who I regularly flirted with was Puffy herself.

We would take things into our own personal Direct Messages, where of course the two of us would get absolutely wild and freaky. Total gooner shit. While I don't do this today, I am willing to acknowledge it happened. I was homewrecking, and Puffy was cheating.

We'd keep this affair up between eachother for a while until one day (from what I've gathered and can truely remember), Puffy would get exposed for cheating and cut ties with me, then lying to people about her age to make me out as some sort of mega pedophile to add insult to injury.

If you haven't ***already watched the video, here is her and me confirming with eachother our ages.***

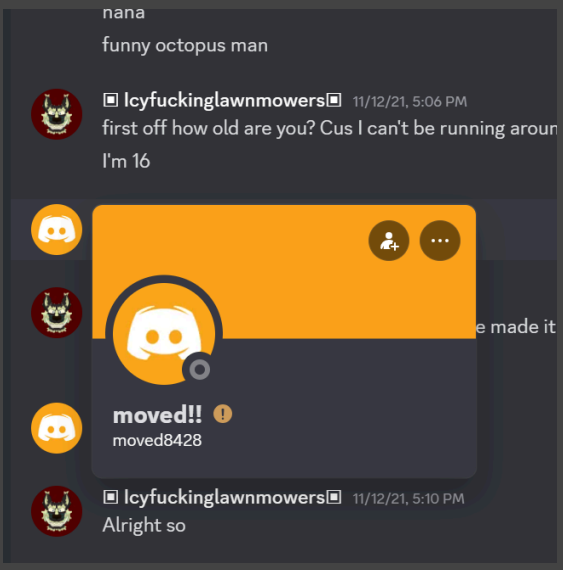
Alright so

16, that doesn't seem to be the 11 year old we were all told about isn't it?? But this is the account and this is the very person you've seen and heard about.



This is the discord @ as well.

Now in the video you see everything that was said and such. + some (for the unfortunate viewers).

## The ‘Known’ Story–

Many of you know the story below.

“Icylawnmowers, an grown adult groomed an 11 year old from his community discord in 2022 and sent porn he made to her, and other minors alike.”

Now, you’re definately asking yourself, why didn’t I just upload all this information back then?? Well I tried, I had pieces of what happened however at the time I wasn’t aware you could type in a phrase on discord mobile, and pull up a closed dm.

At the time this drama had arisen, I wasn’t just fighting in the myth community, I was fighting in school (jackasses) and at home. Like I told many people at the time, the myth community was actually better than my own life. I mean shit Bootcamp was like daycare for me, that alone should give you an idea of how bad home was to me.

I would go on to panic because I didn’t want people to know me as a **homewrecker**. So I made up a song and story about what happened to cover my tracks up. *Well as you can see I’m horrible at lying and actually made the situation WAY worse.*

I take full accountability for lying about what originally happened. It was my fault things got like this. Because of my little story, and what was going on, I managed to gaslight myself into believing this story. Eventually others would come forward like Jovile and Votaly, who pushed the narrative more that I was actively trading CP, creating it. This would get BOM involved.

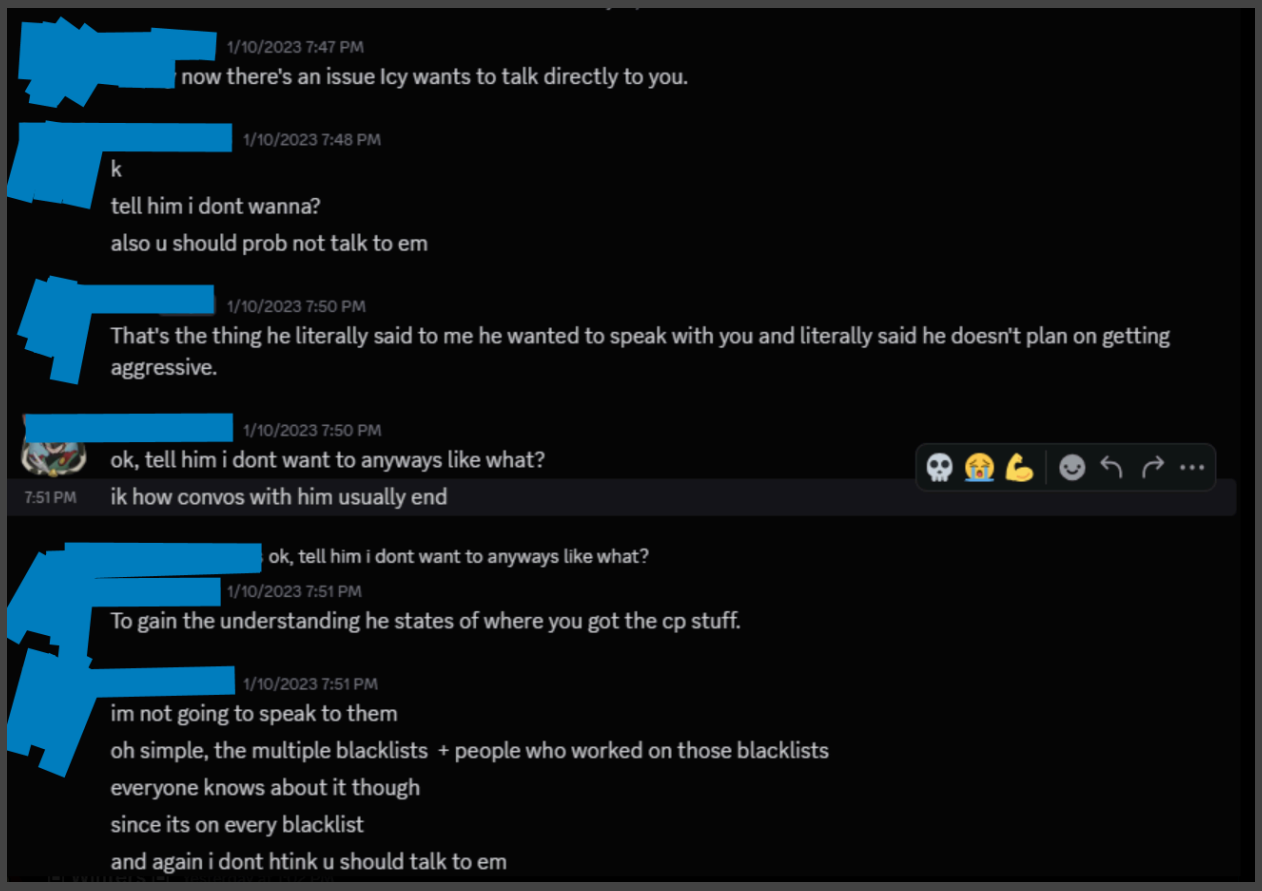
I would go on to talk to LadySarah about the issues seeing as my community regardless of who it was, was being blacklisted for something I didn't do. A lie. Something I had been actively telling the truth on.

I'd then get proper proof from these people who lied, and of course this didn't get me taken off the blacklist because people still disliked me regardless.

Infact ***this entire drama is fueled because people don't like me.***

You will see below just how misinformation spreads and how the blacklists + large figures had been used to persuade people into believing I was whole heartedly this mega evil pedophile demon.



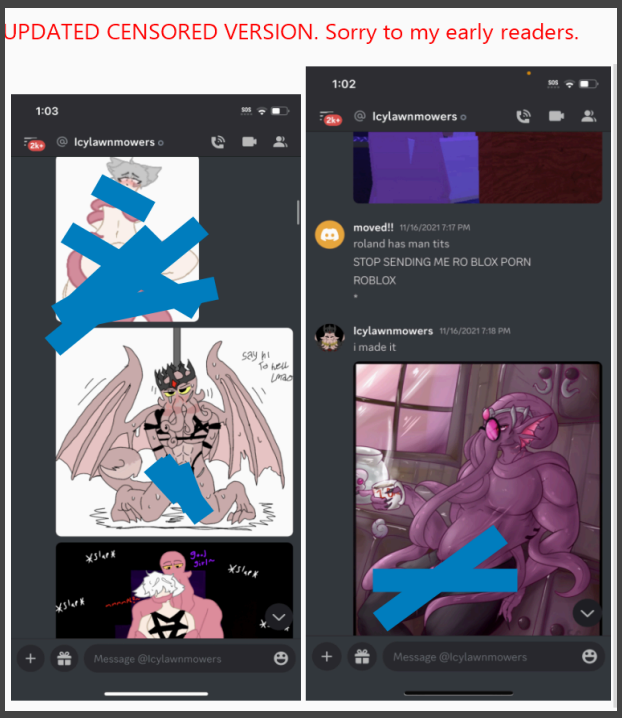
1/10/2023 7:47 PM
now there's an issue Icy wants to talk directly to you.
1/10/2023 7:48 PM
k
tell him i dont wanna?
also u should prob not talk to em
1/10/2023 7:50 PM
That's the thing he literally said to me he wanted to speak with you and literally said he doesn't plan on getting aggressive.
1/10/2023 7:50 PM
ok, tell him i dont want to anyways like what?
7:51 PM
ik how convos with him usually end
ok, tell him i dont want to anyways like what?
1/10/2023 7:51 PM
To gain the understanding he states of where you got the cp stuff.
1/10/2023 7:51 PM
im not going to speak to them
oh simple, the multiple blacklists + people who worked on those blacklists
everyone knows about it though
since its on every blacklist
and again i dont htink u should talk to em

These false naritives were regularly pushed enough to where people didn't question anything even if I shown proof.

Another major fueler of this drama is a well known guy called HyperPhysical. Hyperphysical would be totally informed by me about the entire drama, which we would be chill for months until much later in September of 2024 when he would turn on me and accuse me of pedophilia after having been allied and working with me for MONTHS.

He used the images to the right as proof.

Again I explained these were out of context, this did not stop him from having people harass me, tell me to off myself to go fuck a dead friend in hell, try doxing me, and pursading me into doing a livestream where I blow my head off.



**How active are people on this drama?–**

Hello! I saw that someone was telling you that icy was falsely banned from Tmu!
This is false as he is literally on a sex offender registry!

Oh we just don't like misinformation spreading!
Oh we just don't like misinformation spreading!
1:59 PM
thats why I asked kiceba if it was true
I didnt wanna point fingers
thats why I asked kiceba if it was true
Oh he told one of the staff to explain because he was tired of explaining it!

Do I even need to explain? The “proof” everyones had is one dm, with one person who no one actually knew the real age of or story behind. Ontop of this, Sex Offender Registry is fucking insane like I’m sorry WHERE, WHERE??? I’ve never even incited anything about being a sex offender let alone break down into saying “yes!! I did it!! It was alll mee!!!” Like a fucking cry baby (I am one) from how stressful it was on me.

I grew to a point where before rediscovering the REAL dm, I began believing I really was a pedophile, that somehow I had just oversaw what happened or gaslit myself into believing I wasn’t one.

Do you have any idea how scary that was? And now see that not only was I right but I was fucking terrified because I simply didn’t know I could find the dm via phrase look up on discord mobile??

Everyone jokes about me having mental damage or being schizophrenic, but I honestly think I genuinely have mental issues now from how much shit this drama brought up onto me for YEARS, I was afraid to exist, I was scared to talk to people, I tried moving past everything. The amount of damage this has done to me is obscene.

When I rediscovered the dms, at first seeing everything scared the shit out of me because I was still under the impression this was a minor. I even started deleting things from myself, I panicked. But then I saw it.

Sweet, sweet fucking “I’m 16”

My proof.

I cried for 4 hours after that, and upon writing this document I shook violently. I felt sick, I was cold, I was shaking, I was not in a good state of mind. I have been tortured for years over this and all along I was telling the truth that I didn’t do it.

Unfortunately, I can’t find the screenshots about me “being a mass child murderer”. This simply happened because I said I liked William Afton and love the idea of being in a suit chasing people around like a monster, mere because I was being edgy.

The images below are just showcasing that me and Puffy were infact having an affair and it was consensual + an entirely normal relationship turned against me because she got angry one day.
